

HI. I'M FULLA 

JUST PLAYIN'

## FULLA 3 CONTROLS & CONNECTIONS

**1 Volume Knob.** Turn up til you smile, but not until your ears bleed.

**2 Microphone Input.** If you're using a headset microphone, connect it using the pink plug on the Y-adaptor that is usually included with your headphones. Do not use a TRRS jack; it will not work.

**Note:** Some games will need you to set sound preferences for best results. See [schitt.com/guides/gaming](http://schitt.com/guides/gaming) for more information.

**3 Headphone Output.** Plug your headphones in here. If you are using headphones with a headset microphone, plug the green plug from the Y-adaptor that is usually included with your headphones. Do not use a TRRS plug; it will not work.

**4 Preamp Output.** Plug this in to your powered monitors (or a power amp) using a 1/8" TRS to dual RCA cable (for most products—others may need different cables, consult the manufacturer.) For line-level output, adjust the volume knob on the top of the Fulla 3 to the 3:00 position.

**5 Analog Input.** If you'd like to use your Fulla as an amplifier for another analog source (like, if you

still have a phone with a headphone jack), plug it in here with a 1/8" stereo TRS plug.

**6 USB Power Input.** If you get a "this device draws too much power" error, or if your source doesn't "see" the Fulla, connect this input to 5V DC at 500mA or above with a micro USB cable. Your phone charger may work just fine (if it uses micro USB connectors, that is.)

**7 USB Power and Data Input.** Connect this to your computer or other USB source using the provided micro USB cable, or with another USB 2.0-rated, high-quality micro USB cable.

### FULLA 3 OPERATION

Most modern devices won't need drivers, but if you're still using Windows 7, drivers are available at [schitt.com/drivers](http://schitt.com/drivers)

Select "I'm Fulla Schiit" in Control Panel/Sound Devices (PC) or in System Prefs/Sound (Mac.)

Play some music (some music players will have to be set to "I'm Fulla Schiit" too.)

**That's it! Enjoy the game – or some music!**
